

## Pinselreiniger

Highly effective paint solvent and softener, brush care. Ideal for painting, artist and varnishing tools. Environmentally friendly biodegradable. Universally applicable on the basis of renewable raw materials, for the professional removal of fresh or dried paint residues from painting, varnishing and artists' tools. Excellent cleaning and dissolving properties. With integrated brush care for smooth tools. Particularly gentle on real hair/china bristles.

## Product description

<b>Application area</b>	Easily dissolves the most stubborn soiling such as water- or solvent-based paints, varnishes, oils, waxes, greases, soot, tar, bitumen. Cleans hardened brush bristles.
<b>Package sizes</b>	0,75 l

## Processing

<b>Processing</b>	<p>Shake well before use. Immerse fresh, paint-stained tools in the brush cleaner, roll through well (tap tools vigorously several times on the bottom of the container) and then rinse with water until the water no longer changes color. Soak heavily dried, dirty tools overnight in Le Tonkinois Brush Cleaner, roll well and rinse with water.</p> <p>Excellent for storing tools in open containers, as the brush cleaner hardly evaporates. Extremely productive, discoloration of the brush cleaner by paint/lacquer residues does not reduce its dissolving properties.</p>
-------------------	---

<b>Usage</b>	Depending on contamination and tool size.
